

Beecher Lions Club Summerfest Pop-Up Booth Highlights

We took the Plan to the people on Saturday, August 4th, 2018, by setting up a pop-up booth at the Lions Club Summerfest in Fireman's Park. While the weather was a bit hot and steamy, the idea's shared by residents, and their love for the community, were cool!

The most popular suggestion, by far, was to attract a family restaurant. Other suggestions included:

- Park and recreation related enhancements such as a skate park, dog park, running track, repair of the tennis courts, and a recreation center or YMCA
- A place for teens to hang-out
- A trauma center
- Street repairs in the downtown area (suggested moving the car show downtown was good, but street conditions keep some from exhibiting their cars)
- Need a Wal-Mart
- More healthy food options would be good
- A conference center
- Extension of Metra service would really help to enhance downtown Beecher
- An AP program at the high school
- A High School football team
